

The Wise Men

There are two project ideas for picturing the wise men:

1. Make a collage of the wise men, using special papers. (Paper could be foil wrapping paper, wall paper samples, or other colorful paper.)
2. Cut out pieces of paper for robes, heads, gifts, *etc.* and glue these onto black construction paper so that you have 3 wise men.
3. Then cut out the wise men and mount on a complimentary background color of paper.
4. Older children may want to paint the wise men in a way that suggests a stained glass window. Make stylized figures using vivid colors and black outlines.
